Mini Project Review

Huda | KITM24MCA-2010 | MCA

Introduction

- A tool for vendor and supplier management
- Helps businesses evaluate and compare vendors
- Tracks performance metrics like cost, quality, delivery, and compliance
- Aims to enhance supply chain efficiency and reduce risks
- Provides analytics and dispute management

Objectives

Key objectives of SupplyScore:

- ✓ Simplify and automate supplier evaluation
- ✓ Compare vendors using critical performance metrics
- ✓ Track supplier performance over time
- ✓ Minimize risks from unreliable vendors
- ✓ Support dispute resolution and audit through analytics

Existing System

Problems in traditional vendor management:

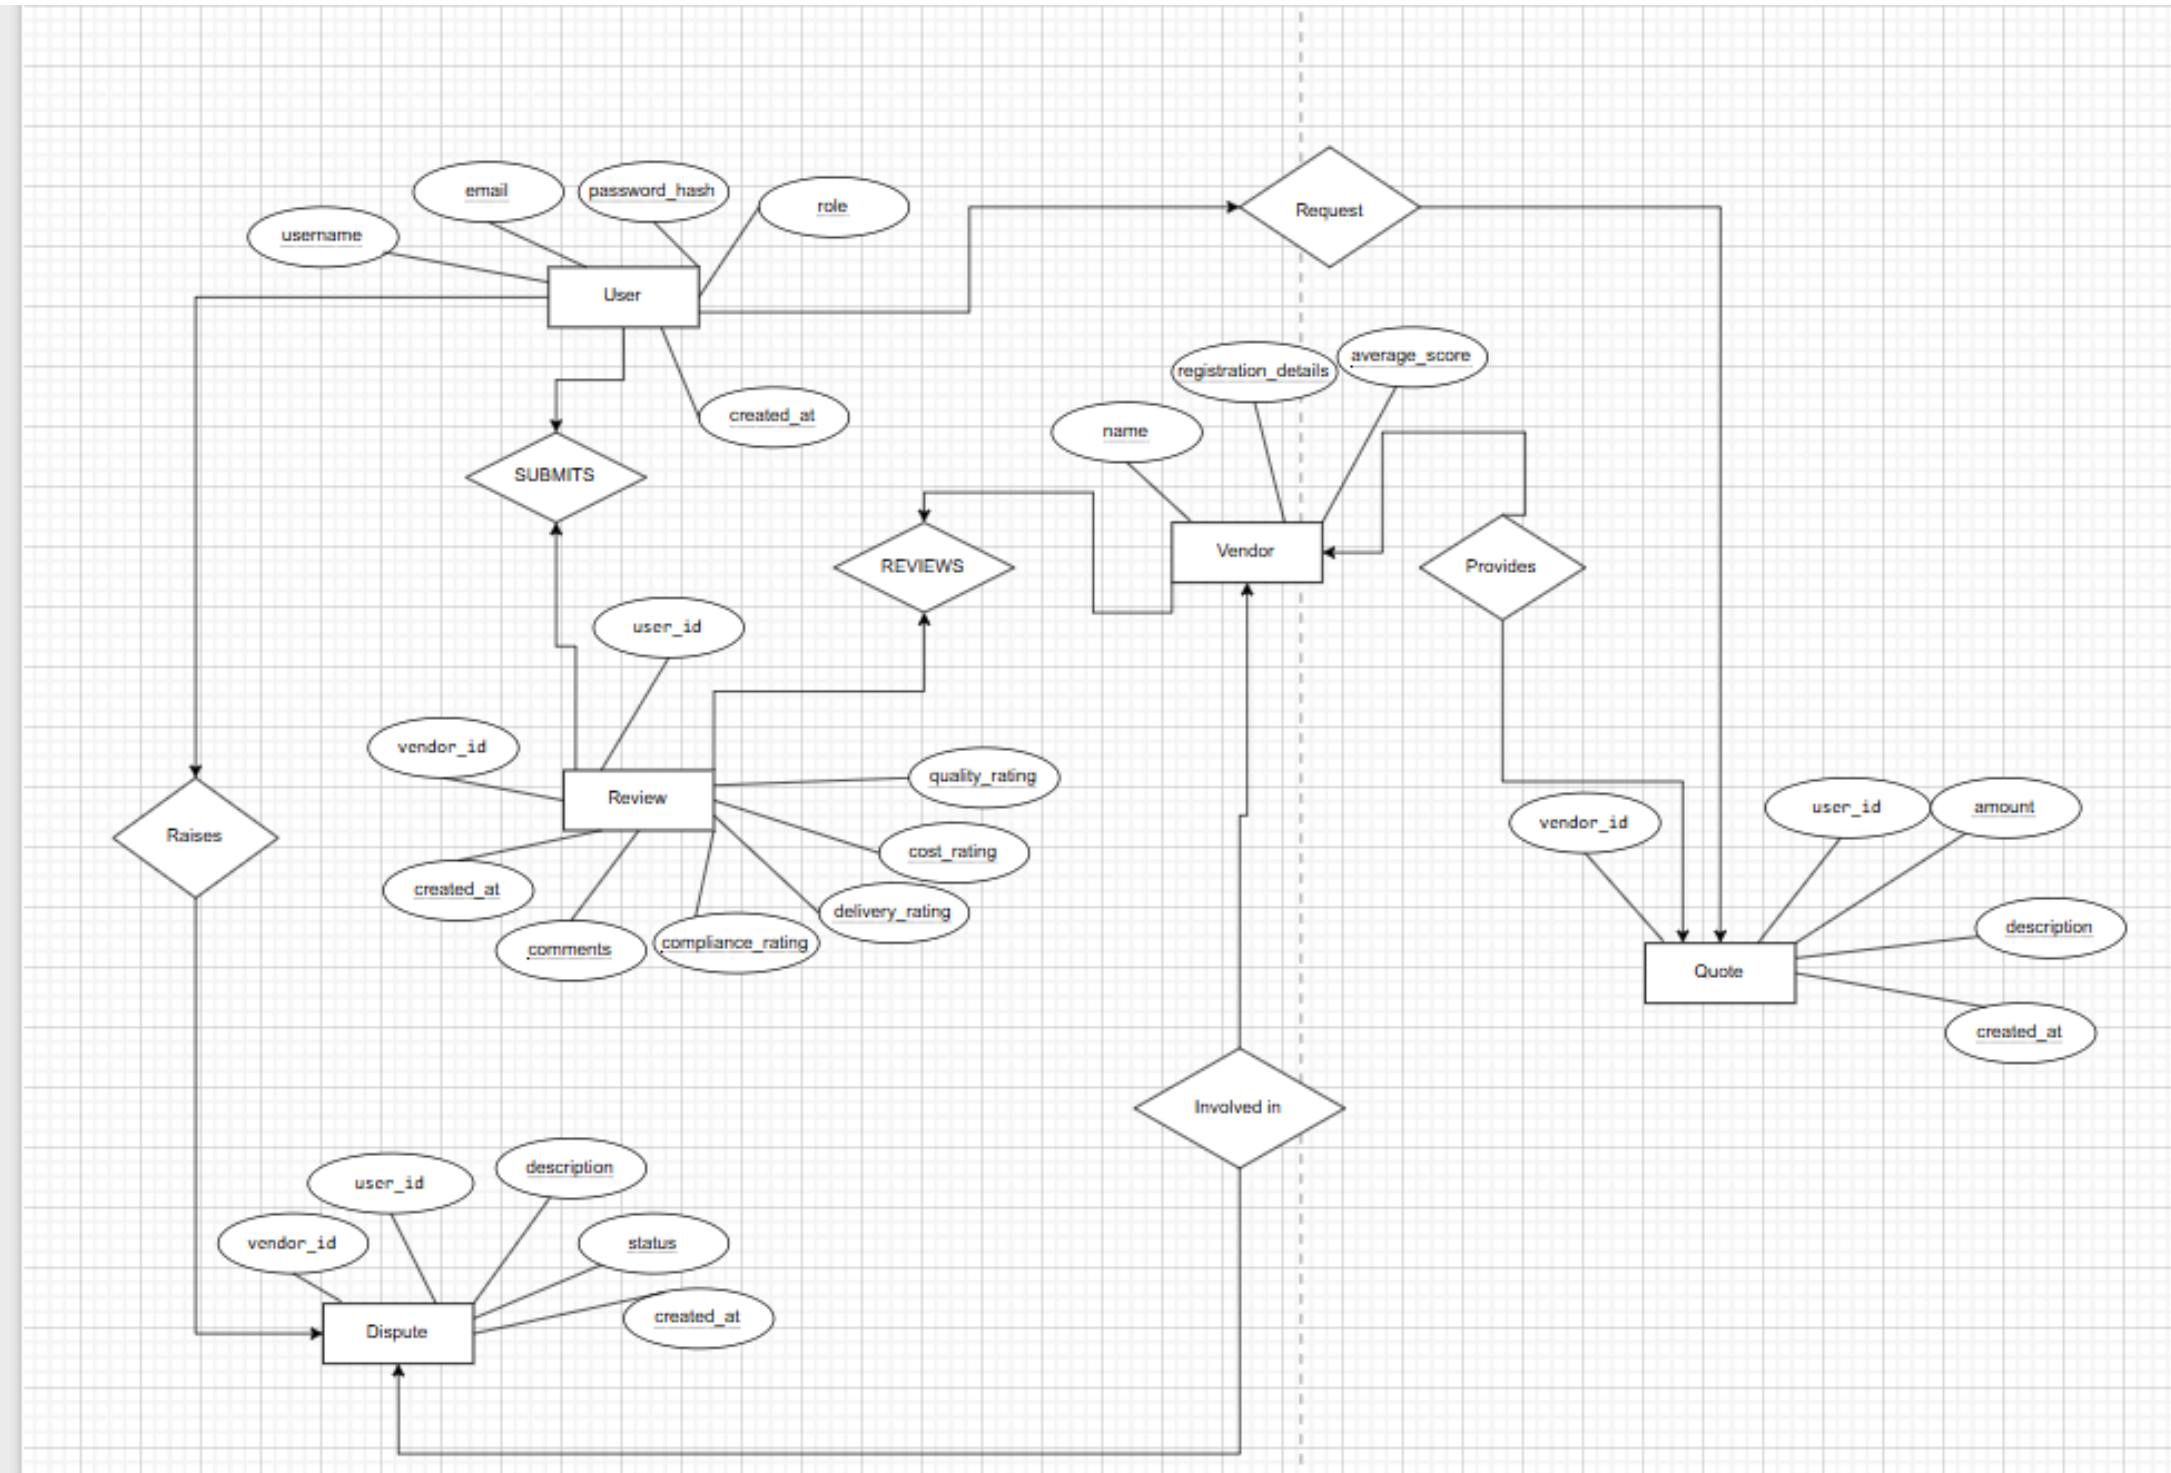

- ✗ Lack of standardized evaluation methods
- ✗ Poor tracking of transactions and disputes
- ✗ Difficult to compare vendor quotes
- ✗ Limited access to verified reviews and vendor credibility

Proposed System

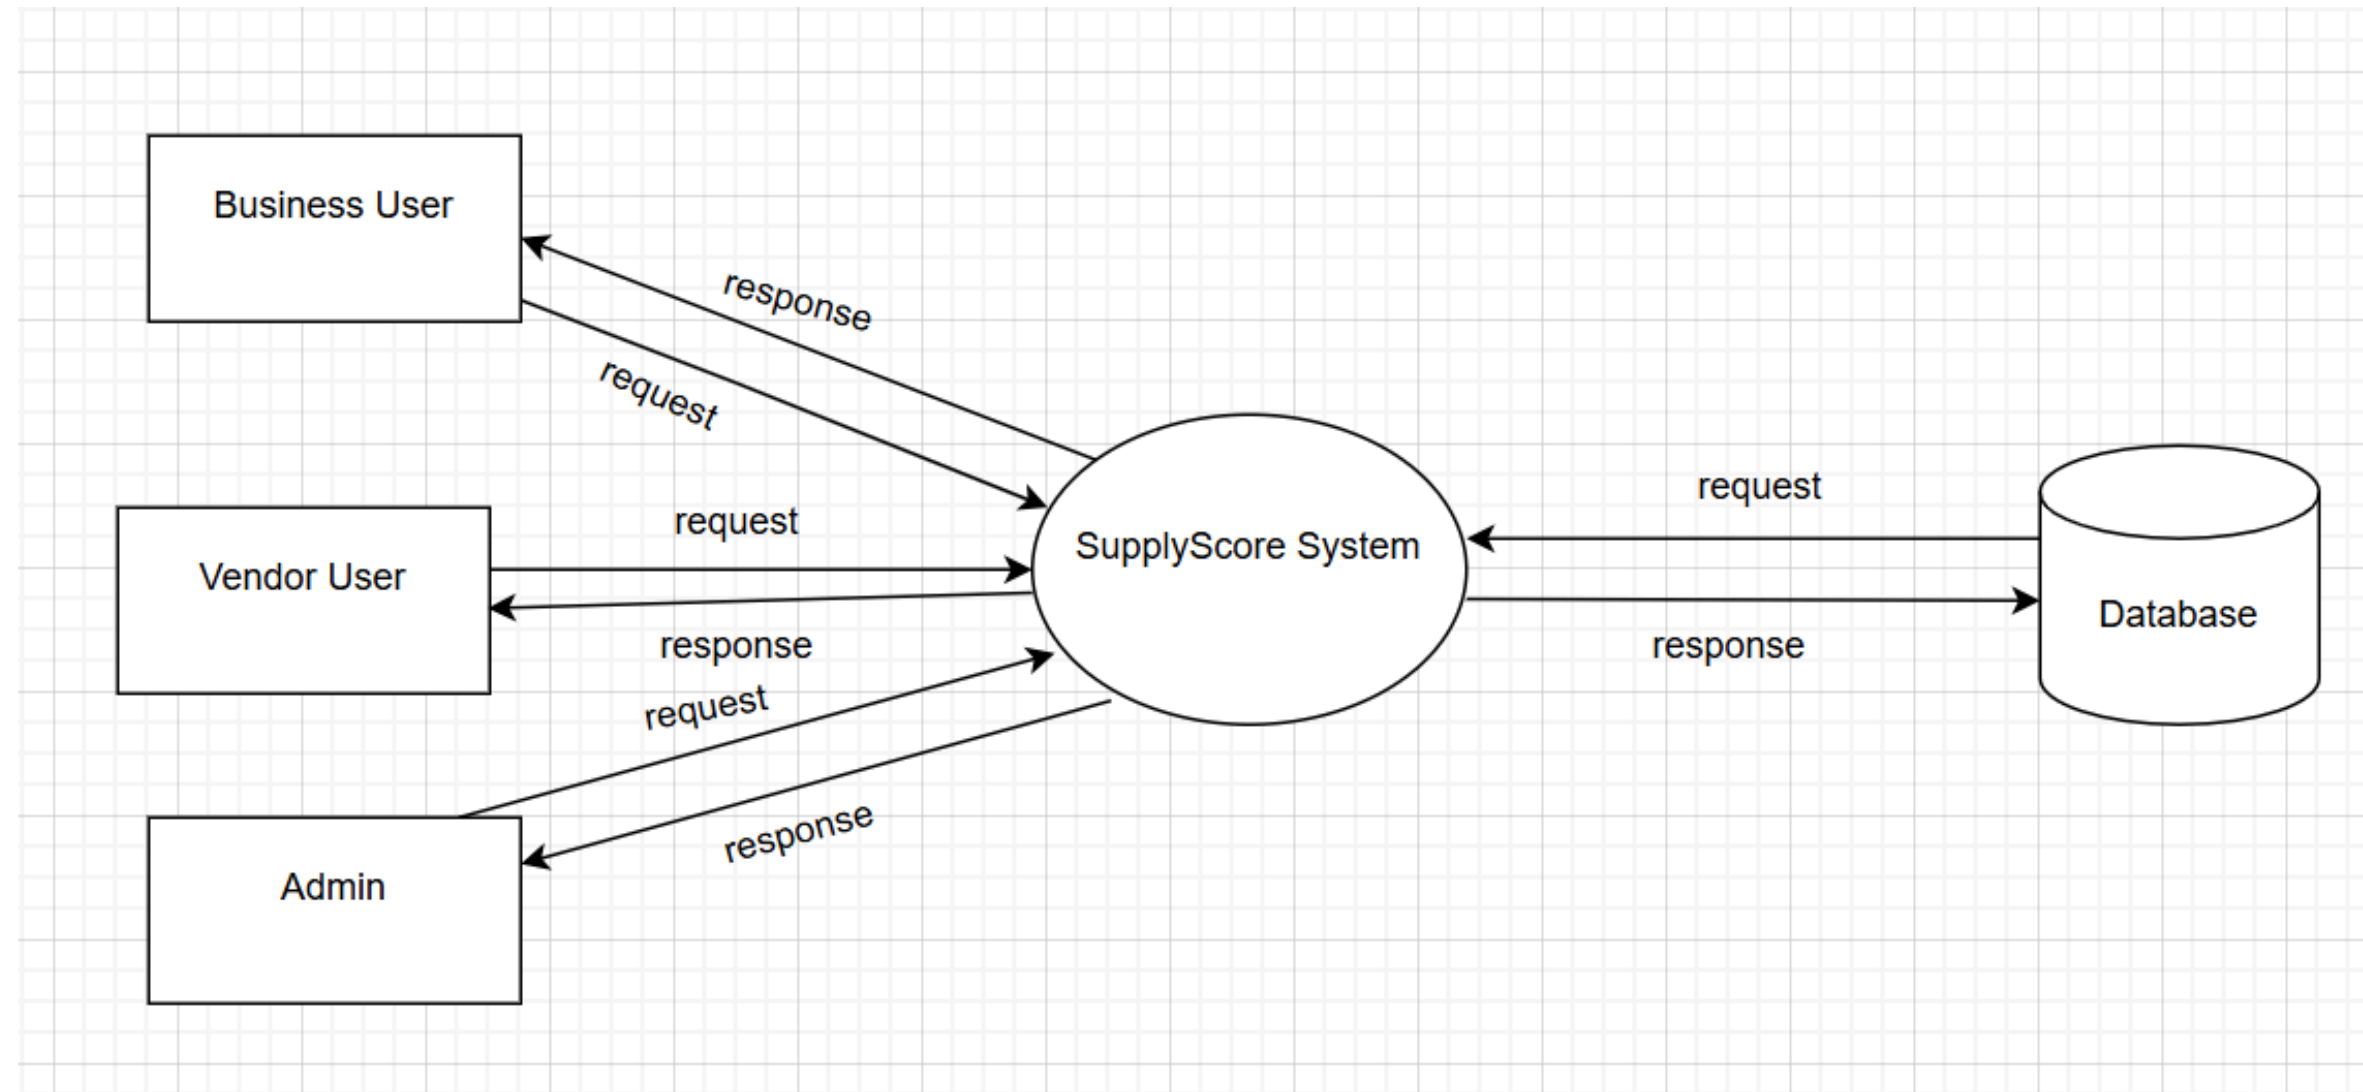

SupplyScore's solutions:

- ✓ Automated and structured vendor evaluation
- ✓ Secure registration and login for businesses and suppliers
- ✓ Verified reviews and ratings
- ✓ Quote comparison tools
- ✓ Dispute logging and resolution system
- ✓ Analytics dashboards with visual reports
- ✓ Transaction history for audits and repeat orders
